

MoMA Scan Results

Scan Date: 1.5.2016. 18:29:27

MoMA Definitions: Mono 2.8 (2.0 Profile)

For descriptions of issues, see [MoMA Issue Descriptions](#).

Assembly	Version	Missing	Not Implemented	Todo	P/Invoke
  ARV_Studio.exe	2.1.0.0	0	8	9	0
Calling Method		Method that Throws NotImplementedException			
string funcCPU_HW_ID ()		void SelectQuery..ctor (string)			
string funcCPU_HW_ID ()		void ManagementObjectSearcher..ctor (ObjectQuery)			
string funcCPU_HW_ID ()		ManagementObjectCollection ManagementObjectSearcher.Get ()			
string funcCPU_HW_ID ()		ManagementObjectCollection/ManagementObjectEnumerator ManagementObjectCollection.GetEnumerator ()			
string funcCPU_HW_ID ()		ManagementBaseObject ManagementObjectCollection/ManagementObjectEnumerator.get_Current ()			
string funcCPU_HW_ID ()		Object ManagementBaseObject.get_Item (string)			
string funcCPU_HW_ID ()		bool ManagementObjectCollection/ManagementObjectEnumerator.MoveNext ()			
void Printaj (Object, WebBrowserDocumentCompletedEventArgs)		void WebBrowser.ShowPrintDialog ()			
Calling Method		Method with [MonoTodo]	Reason		
bool PingInternet ()		bool Network.Ping (string)			
string funcCPU_HW_ID ()		void SelectQuery..ctor (string)			
string funcCPU_HW_ID ()		ManagementObjectCollection/ManagementObjectEnumerator ManagementObjectCollection.GetEnumerator ()			
string funcCPU_HW_ID ()		ManagementBaseObject ManagementObjectCollection/ManagementObjectEnumerator.get_Current ()			
string funcCPU_HW_ID ()		Object ManagementBaseObject.get_Item (string)			
string funcCPU_HW_ID ()		bool ManagementObjectCollection/ManagementObjectEnumerator.MoveNext ()			
void InitializeComponent ()		void WebBrowser..ctor ()	WebBrowser control is only supported on Linux/Windows. No support for OSX.		
void InitializeComponent ()		void PrintDialog.set_UseEXDialog (bool)	Stub, not implemented, will always use default dialog		

void btn_print_Click (Object, EventArgs)

void WebBrowser..ctor ()

WebBrowser control is only supported on Linux/Windows. No support for OSX.
